

Indiana Department of Natural Resources / Division of Water

30 Day Public Notice Report

The Department of Natural Resources is providing this report to satisfy the requirements of the "Procedures Concerning Certain Licenses Act", IC 14-11-4, and its associated administrative rule, 312 IAC 2-3. The application files are available for public inspection at the Division of Water's office in Indianapolis. Please contact the Division's Technical Services Section at (317) 232-4160 or the toll free number 1-877-928-3755 to make an appointment for file review. Photocopies may be made for a nominal charge of \$0.10 per 8 1/2 " X 11" copy.

A pre-action public hearing on an application may be requested by filing a written petition with the Director, Division of Water:

Michael W. Neyer, P.E., Director
Division of Water
Room W264
402 West Washington Street
Indianapolis, Indiana 46204

For a petition to be considered valid it must:

1. Contain the typed or legibly printed name and complete mailing address of each petitioner;
2. Be signed by a minimum of 25 individuals who are at least 18 years old and either reside in the county where the project will take place or own real property within 1 mile of the project site;
3. Affirm that each signatory to the petition satisfies the requirements of item 2; and
4. Identify the application for which the public hearing is being requested either by the application # or the applicant's name and the project description.

A petition which does not meet these requirements will be considered invalid and the hearing request will not be granted.

A person may request that the Department provide written notice of its action on an application by filing a written request with:

Division of Water
Room W264
402 West Washington Street
Indianapolis, Indiana 46204

The request must identify the application by either the application # or the applicant's name and the project description.

30 Day Public Notice Report

Application # : FW-24111

Stream : West Creek

Applicant : Lake County Drainage Board
Daniel V Gossman
2293 North Main Street
Crown Point, IN 46307-1854

Description : The purpose of this project is to improve conveyance of the regulated drain by restoring it to its original drainage capacity design, improve bank stability, and decrease downstream sediment problems. In general, West Creek will be excavated back down to its original elevation. The proposed maintenance to West Creek will not increase the drainage capacity beyond the original design or expand the area drained by the regulated drain as originally designed. Maintenance required includes removal of accumulations of logs, root wads, trees in danger of falling into the regulated drain or obstructing the flow, and other debris that spans the waterway using hand operated and/or heavy equipment, dipping, dredging, and/or removing sediment from the channel bottom with a bucket, installation of two in-channel sediment basins approximately 80 feet long and 3 feet deep; slope repair, and riprap to protect the outfalls of intersecting drainage pipes. All work will be performed from one side of the channel without disturbing the ditch banks. No spoil material will be placed in the floodway or in wetlands. Drag line mats will be used beneath heavy equipment in wetland areas. All wetland areas will be identified and marked on plans. Silt fence will be placed along the ditch side of spoil piles. Disturbed areas and spoil piles will be seeded and mulched. Details of the project are contained in information received electronically at the Division of Water on December 18, 2006.

Location : The project is located along West Creek from the north side of Belshaw Road/SR 2 crossing, to approximately 3.3 miles upstream on the south side of 185th Avenue.
near Lowell, West Creek Township, Lake County
